

# THE RDS DEPOSIT SAFES

Ideal for Retail and Business

The World's Trusted Safe

**ADDED SECURITY FEATURES**  
Equipped to Deter Theft

**BURGLARY RESISTANT SAFE**  
The strength to protect

The Falcon RDS deposit safes are specifically designed for retail and commercial use to secure and protect cash deposits and valuables.

They are ideal in work environments where large amounts of cash can build up in the tills leaving employees vulnerable to theft.

They are a proven effective way for staff to simply “skim the tills” and transfer the money quickly and safely into the safe, this reduces the cash register holdings to a minimum.

This can all be done whilst the safe door remains locked. Access to the safe’s contents can then be limited to one person, therefore reducing content accountability. This is essential where cash control is vital, optimising cash-handling procedures for retailers.

These cost-effective and compact postal slot deposit safes are easy-to-install and make perfect under-the-counter safe to keep cash secure from theft at the tills.

The RDS is a strong & tough deposit safe and includes an anti-fishing device to prevent retrieval of deposits once made providing the best in cash management for your on-site money.
